

# Licensing

If you use a license server, see the [Certified Third-Party Software](#) table to verify that you have the correct version of FLEXIm software. A more detailed description of how to obtain a FLEX license can be found on the DELMIA Process Engineer CD in the folder `\Support\FLEXIm`.

To get a license, please provide the licensing department at DELMIA (either `licensing_germany@delmia.de`, or `licensing@delmia.com`) with the following licensing information:

Company:
Location:
Contact:
Phone/Fax:
Email:
Computer name: <sup>1</sup>
MAC – Address: <sup>2</sup>
DPE Version:
Previous license: <sup>3</sup>

**Notes:** <sup>1</sup>You can see your computer (or host's) name by opening a command window and entering `ipconfig /all`.

<sup>2</sup>On this CD, in the directory `\Support\FLEXIm`, copy the executable `Imutil.exe` onto your machine. In a command window, enter `Imutil hostid`. The first or only output is your MAC Address.

<sup>3</sup>Intended for customers who upgrade from an earlier version. The previous license number can be obtained from the **Help** menu.
