

Bell Micro

Company overview: Bell Microproducts is an international, value-added provider of a wide range of high-technology products, solutions, and services to the industrial and commercial markets. The Company's offering includes semiconductors, computer platforms, peripherals, and storage products of various types including desktop, high-end computer and storage subsystems, fibre channel connectivity products, RAID, NAS and SAN storage systems and back-up products. Bell Microproducts is an industry-recognized specialist in storage products and is one of the world's largest storage-centric value-added distributors. The Company's products are available at any level of integration, from components to subsystem assemblies and fully-integrated, tested and certified system solutions. The Company adds value with a broad range of services including system design, integration, installation, maintenance, and other consulting services. Trained and certified technical personnel provide these services at Bell Microproducts' ISO 9001:2000 facilities. Bell Microproducts markets and distributes more than 140 brand name product lines, as well as its own Rorke Data storage products and Markvision memory modules, to original equipment manufacturers (OEMs), contract electronic manufacturing servicesn (CEMS) customers, value-added resellers (VARs) and system integrators in the Americas and Europe.
