Ceyoniq Technology GmbH

Company overview: Ceyoniq Technology GmbH is a software producer for Enterprise content management, document management and archiving. The products and solutions of Ceyoniq integrate with existing applications, e.g. ERP- and CRM systems. There are 120 employees in Bielefeld, Munich, Berlin and Cologne. Partners of the Ceyoniq are DEVK reinsurance and participation AG, Cologne (50 %), the VHV participation AG, Hanover (33,33%), and the DEVK private Equity GmbH, Cologne (16.66 %). With the new, standardized platform for ECM, nscale integration, Ceyoniq strengthens it position as a software vendor. nscale's success in the enterprise further consolidates a structured ECM platform for digital archiving and document management. The platform provides extensive functions for process, documents, archive availability, records, content, Knowledge as well as Lifecycle management and ensures maximum multi-platform functions, scaling, speed of operation and security. Users of the Ceyoniq technologies include the TUI AG, the German savings bank organization, the RWE AG, the police Lower Saxony as well as the German postal bank AG.
